Having been raised a mundane street urchin, Carmine never imagined that in one day she would discover she has untapped magic potential on par with the heavy hitters. If only she knew how to control it... Enter Crimson Skye, an adventurer for hire who needs a mage and is willing to sign up the fledgling magic user so long as she comes along to participate with the monster fighting, pirate raiding, and all around dangerous lifestyle that the air-ship crew leads. The goal? Assemble a Dream Star - an item that will grant its creator a return prize of any magnitude. Such a prospect attracts more than just the captain of the Scarlet Skye, though. Several other sky pirate groups and even an archmage are all interested in completing the Dream Star, and no one is willing to take second place. Furthermore, Carmine's involvement and the subsequent unlocking of her magic COULD mean that she becomes a monster worse than anything the crew thought they might have to face. Is the promise of endless treasure worth it? Or is there more at stake than Crimson Skye's willing to let on?

“My name,” she said, “is Rubicund. But Ruby is easier and preferable to me.” The Areas of Fables were large and filled with all the fantasy creatures it sustained. Fourteen-year-old Rubicund had narrowly escaped a marriage set by her mother in the Settlements of Foundation, the most uneventful town in all of Fables. Now she has set her vivid red eyes on becoming a traveller like the revered Vagrants. She learns how to fight by training in the Domicile of Ordnance and meets Karachi, the orange-eyed stoic denizen, and Kazak, the sarcastically unstable warlock. Together, they are joined by Lanna, the gentle Valkyrie Blairwitch, and her two loyal followers. To protect Rubicund, Kazak is swept into the wicked Feast of the Gild Elves.

Much research exists on the considerable influence of American and European culture on the newly opened borders of Japan in the 1920's, yet there is very little recognition of French influences beyond the acknowledgement of Surrealism in literary and artistic circles. Evidence exists, however, that French thought made a deep and lasting impression on Japanese culture; an effect that permeated the formation of Japanese philosophy to the modern expression of Japanese animated film, or anime. Currently, evidence does not bear out a premise of direct influence, but unmistakable parallels in philosophical development point to French writer and thinker Georges Bataille, who extended Mikhail Bakhtin's concept of grotesque realism as a literary tool formulated to demand a response from the audience. Japanese writers Yasunari Kawabata and Kenzaburo Oe used imagery in a similar way as Georges Bataille; they used images derived from their own culture as well as shared surrealist symbols and grotesque imagery. Just as Bataille did, Kawabata and Oe worked out their own personal, societal, and psychological concerns in a sensory-heavy method in order to shock the audience into

mental and emotional participation. Specific grotesque or erotic symbolism employed by Bataille, Kawabata, Oe, and anime is not evidence of the connection; instead, it is how each used the shock value of grotesque imagery to create a sensory overload in order to demand audience involvement in a personal and nationwide discussion. The intent of this exploration is not to prove that Japanese anime is founded on French ideology, but instead to clearly and plausibly demonstrate a link between the two, in Kawabata's parallel constructions and Oe's assimilation regarding Bataille, and to show the development and extension of Georges Bataille's philosophy in early and modern Japanese anime.
