Gangsters, Harlots & Thieves: Down and Out at the Hotel Clifton Todd Moore was born and raised in Freeport Illinois and spent 40+ years having written over a hundred books of poetry and prose published in the small press community. He was also a co-founder of the literary movement known as "Outlaw Poetry" with fellow writer Tony Mofeit. His reputation was established writing and publishing numerous books about outlaw John Dillinger from 1978 until his death in 2010. His body of work in this area numbers five thousand plus pages in length.

Gangsters, Harlots & Thieves... paints a bigger than life picture of what it was like growing up in and around the seedy environs of the infamous Hotel Clifton in Freeport Illinois back in the '40's and and '50's when America was a dark, bare

knuckled, mean machine tired of being broke & kicked around, finding it's way after coming out of a crippling depression. There are three aspects of this book that fascinate me. The first part paints a stark portrait of the true life adventures he had living amongst the many shady characters that hung out there gambling, scoring dope and hooking for johns as well as the crooked cops on the take and the drunks and derelicts that had nowhere else to go. The second part of this book is an exploration into what sparked my father's literary passion as a kid and takes a look at how he was inundated with and came to embrace outlaw culture. The final aspect of this book is an examination of my dad's relationship with his father who was a former railroad man, firefighter, failed novelist, professional alcoholic and all 'round tough guy who at one time did a little work for Capone himself. This book tells all of these stories and so much more. These are my father's stories and recollections told with his voice through autobiographical writing, poetry & essays that allows Gangster, Harlots and Thieves... to connect with you immediately whether you're a fan of Todd Moore or writers like Dashiell Hammet and Jim Thompson or movies like "White Heat" and "Sin City." I wrote Gangsters, Harlots & Thieves: Down and Out at the Hotel Clifton to honor my father, his literary legacy and the contributions he made to the overall world of poetry and the small press. Please enjoy! -- Editor Theron Moore

From dirt bikes and jet skis to weed wackers and snowblowers, machines powered by small gas engines have become a permanent—and loud—fixture in American culture. But fifty years of high-speed fun and pristine lawns have not come without cost. In the first comprehensive history of the small-bore engine and the technology it powers, Paul R. Josephson explores the political, environmental, and public health issues surrounding one of America's most dangerous pastimes. Each chapter tells the story of an ecosystem within the

United States and the devices that wreak havoc on it—personal watercraft (PWCs) on inland lakes and rivers; all-terrain vehicles (ATVs) in deserts and forests; lawn mowers and leaf blowers in suburbia. In addition to environmental impacts, Josephson discusses the development and promotion of these technologies, the legal and regulatory efforts made to improve their safety and environmental soundness, and the role of owners' clubs in encouraging responsible operation. Synthesizing information from medical journals, recent environmental research, nongovernmental organizations, and manufacturers, Josephson's compelling history leads to one irrefutable conclusion: these machines cannot be operated without loss of life and loss of habitat.

This title can be used to either complement another electromagnetics text, or as an independent resource. Designed primarily for undergraduate electromagnetics, it can also be used in follow-up courses on antennas, propagation, microwaves, advanced electromagnetic theory, computational electromagnetics, electrical machines, signal integrity, etc. This title also provides practical content to current and aspiring industry professionals. MATLAB-Based Electromagnetics provides engineering and physics students and other users with an operational knowledge and firm grasp of electromagnetic fundamentals aimed toward practical engineering applications, by teaching them "hands on" electromagnetics through a unique and comprehensive collection of MATLAB computer exercises and projects. Essentially, the book unifies two themes: it presents and explains electromagnetics using MATLAB on one side, and develops and discusses MATLAB for electromagnetics on the other. MATLAB codes described (and listed) in TUTORIALS or proposed in other exercises provide prolonged benefits of learning. By running codes; generating results, figures, and diagrams; playing movies and animations; and solving a large variety of problems in MATLAB, in class, with peers in study groups, or individually, readers gain a deep understanding of electromagnetics.

As the daughter of blockbuster author Harold Robbins, Adreana Robbins's childhood was divided between glamorous Hollywood and the picturesque south of France. Like her father's works, Adreana Robbins's debut novel is an exciting page-turner, packed with exotic settings

and glimpses into the lives of the wealthy and powerful. Through her own lyrical style, reminiscent of F. Scott Fitzgerald's, Robbins captures the allure of Parisian high society and uncovers generations lost in deceit and betrayal. Shortly before her twenty-first birthday, Djuna Cortez journeys to Paris to claim a mysterious legacy from a grandfather she never knew, Joaquim Carlos Cortez, a world-renowned surrealist painter. Djuna is shocked to learn that he has left her an estate that includes a winery and chateau in Loire, an apartment in Paris, and a priceless art collection, which includes his own works and those of his friends and contemporaries, Miro, Picasso, and Dali. Even more, Joaquim Carlos has made Djuna his literary executor, asking her to see to the publication of his journals. Robbins skillfully relates the parallel comings-of-age of the impressionable Djuna in contemporary Paris and the controversial, hot-blooded Joaquim Carlos in the wild Paris of the 1930s and World War II, both transformed forever by the City of Light. Setting her tale in France, Spain, Morocco, and the seductive Mediterranean, Adreana Robbins carries her readers on a passionate journey. Djuna, overwhelmed by sudden wealth and responsibility and caught up in a jet-set lifestyle, struggles with love, intrigue, and danger. Through her grandfather's journals, Djuna learns of Joaquim Carlos's own struggles: to succeed in the exciting new world of surrealist art, to overcome his obsession with physical pleasure, to survive under Nazi terror. But the greatest shocks come when Djuna uncovers the secrets of her family's painful, mysterious past. Drawing courage from the truths she learns about her family and herself, Djuna strives to recover her freedom and her sanity, and to claim her grandfather's powerful artistic legacy. This book offers a transdisciplinary perspective on the question of how political legitimacy is constructed in the increasingly contested postnational setting of the European Union. Drawing on the example of the controversy about the EU constitution and the use of 'EU constitution speak' in commentaries published by Polish and French broadsheets, it reveals the transformation that constructions of political authority and association undergo when they are being transposed from the discourse field of multilateral negotiation to that of national news media. Through an original combination of the linguistic theory of discourse developed in Critical Discourse Analysis, Bourdieu's field theory and notion of symbolic power, and political thought on polity-building, it develops a framework for the discourse study of legitimation and Europeanisation, and proposes applications beyond the case studies in the book. To students of European integration, it demonstrates the potential these concepts have for unravelling the implicit practices of postnational polity building. Discourse researchers, on the other hand, will discover how detailed text analyses gain significance in debates related to the macro level of political organisation when guided by sociological and political theory.
