This book mainly focus on character designing, Mainly how to design your own shoujo character, We focus more on how to draw significant faces and draw significant clothing and to call it your own and not to be confused with other styles of manga because reading this would make you understand every types of styles out there. Reading this book alone will be like reading all of the books out there that focus on how to design a character, because In this style, you're not only using one styles but all of them! it might sound unrealistic but it remains it's true. I've compiled almost all of the things I learned from all of the books I have read but they're not enough because they usually focus on "I'll show you how to draw like me" types of lessons, But now I made the perfect type of guideline myself that could make you know how to draw all characters out there, and by looking into the styles of others you'll know what category they belong to or what type of facial styles they use or the basic shape they used to make that type of clothing or face almost like how a psychologist read the minds of people.
