"DARK" Growing up in South Central Los Angeles was like living in a fish tank with Parana's. Either you ate, or you were eaten. After my house got shot up by nearby gangs, who were enemies of the gang me and my two brothers socialized with, while I was sitting in the living room watching T.V., at the ripe young age of 13, I vowed to get revenge once I got bigger. At the age of 14, I became the newest member of one of the most notorious gangs in L.A. Earning a reputation of shooting and killing rival gang members was every gang members goal, in order to move up in the ranks. Avoiding retaliation was also part of this dangerous game. In some cases, I became a witness to some of my own homeboys' brutal deaths, by vengeance filled rivals. I was caught slipping at times and was chased, shot at, and even shot by rival gangs. My life was at stake from moment to moment. Everywhere I went I had to carry a weapon in case I ran into some enemies. I've seen the tears of many grieved filled mothers as they watched their child being carried away in the back of a hearse. I really could not relate to that hurt until I saw and felt that same hurt in my own mother's eyes when my older brother was shot and paralyzed at the age of 17. Things just got real.. "LIGHT" As I got older and more mature, I realized that it was more to life than just the typical hood fame. I had dedicated 33 years to the empty promises of the gang life, and 22 years to the prison system. Everyone I grew up with was either dead or in prison with a life sentence. At the age of 39, I was fresh out of prison, on parole, and everything I owned could fit into a small suitcase. I had nothing to show for my loyalty and dedication to the street life but bullet holes, bad memories, and obituaries. So I continued to wander through the wicked streets of L.A., hopeless. It was the only life I knew. Then I was invited to church one day by a man and his son. I gave them my word that I would come to church one Sunday. Being big on a man keeping his word, I went to church one Sunday. And that first day I attended church was the beginning of God reaching down into the pits of hell and pulling me out of the grave.

A strange alien species forces us to question our definition of civilization in this biting satire from the Grand Master of Science Fiction. What would intelligent life? forms on another planet look like? Would they walk upright? Would they wear clothes? Or would they be hulking creatures on six legs that wallow in their own excrement? Upon first contact with the Utod— intelligent, pacifist beings who feel no pain—mankind instantly views these aliens as animals because of their unhygienic customs. This leads to the slaughter, capture, and dissection of the Utod. But when one explorer recognizes the intelligence behind their habits, he must reevaluate what it actually means to be “intelligent.”

The fascinating true tale of electricity's legacy in America charts the gradual progress of this new technology into the homes of Americans at the end of the nineteenth century while exposing the role of "electrotherapy" in American medicine during the same period. Reprint.

Duality of Dark and Light is much like the author; a contradiction. It features both the good and bad of, for lack of a better term, life. Each poem flows to another in some form or another, being either its opposite on the spectrum of light and dark, or its partner. The book consists of poems and artwork that match the feeling of the title. More than anything, this book is supposed to reach out to audiences of most ages and stand out. There is at least one poem for every person to relate to. This book Duality of Dark and Light is a collection of poems and artwork that makes one think, that can make one stop and look at their world in a whole new way. This is what this collection of poems and artwork is all about; nothing more, and certainly nothing less. From Dark to Light is a guide for the modern mystic and spiritual seeker who yearns to quickly heal their life and discover and embrace their higher skills and purpose. Part memoir, part manual, this powerful book shows you how to rapidly accelerate your growth and soar towards the heavens . . . while keeping your feet firmly planted on the ground.

The plot had all the dynamic twists and turns to keep me enthralled to see what would happen next. As November stubs out the glow of autumn and the days tighten into shorter hours, winter's occupation begins. Preparing for winter has its own rhythms, as old as our exchanges with the land. Of all the seasons, it draws us together. But winter can be tough. It is a time of introspection, of looking inwards. Seasonal sadness; winter blues; depression--such feelings are widespread in the darker months. But by looking outwards, by being in and observing nature, we can appreciate its rhythms. Mountains make sense in any weather. The voices of a wood always speak consolation. A brush of frost; subtle colors; days as bright as a magpie's cackle. We can learn to see and celebrate winter in all its shadows and lights. In this moving and lyrical evocation of a British winter and the feelings it inspires, Horatio Clare raises a torch against the darkness, illuminating the blackest corners of the season, and delving into memory and myth to explore the powerful hold that winter has on us. By learning to see, we can find the magic, the light that burns bright at the heart of winter: spring will come again.

From Darkness to Light is a heartfelt and poignant exchange of letters between Isabelle Sinclair, a twenty-one year old inmate at Coffee Creek Correctional Facility, and Stuart Perrin, who teaches Kundalini meditation practice there. When I first met Isabelle Sinclair at a Coffee Creek Correctional Facility meditation class, she was a waif of a thing with blue hair and dark penetrating eyes that revealed a deep intelligence and hunger for a spiritual life. She looked at me with an appraising eye that belied a lack of security and covered a sincere need for life out of the ordinary. One rarely sees that in a twenty-one year old person. I knew nothing about her past nor did I care, but she reminded me, a bit, of what I was like when I was her age. When I received Isabelle's first letter, it was analytical, a little bit angry, and distrustful, but beneath the surface there was a deep need for some kind of spiritual guidance. One letter followed another, sometimes two or three at a time, but each letter, whether full of anger, insecurity or gratitude, revealed a hunger in this young person for a life that transcended the ordinary. She wouldn't accept the mediocre and commonplace she saw in people and refused to lead a boring and mundane life. It so much reminded me of myself when I was her age, her incarceration was simply rebellion against the ordinary. I told her, both in our letters, and when I taught at Coffee Creek Prison that there are no accidents. She had to be grateful for time spent at Coffee Creek because it would completely transform her. If she developed a strong inner life, she could use the deadly atmosphere of prison as a reminder that she had no choice but to continue to fix her own mental and emotional chaos...and I could help her do it. - Stuart Perrin

In the land of darkness lives a shaggy but lovable creature. He is pining away because he has lost his home and has lived in the dark ever since. One day, the shaggy creature is overcome with curiosity and ventures out to the edge of the darkness. There, bathed in sunlight and bright colors, lives a very different and gentle creature. The two inhabitants of these different worlds become friends, and with his new friend, the shaggy creature overcomes his loss and finds his way back to the world of color. A quietly poetic story, told by Kerstin Hau, which gives hope and courage in difficult times. With contrasting imagery by Julie Völk, this book shows that life can be light, colorful, black, grey, and everything in between.

An innovative and elegant new biography of John Milton from an acclaimed Oxford professor John Milton was once essential reading for visionaries and revolutionaries, from William Blake to Ben Franklin. Now, however, he has become a literary institution--intimidating rather than inspiring. In *Making Darkness Light*, Oxford professor Joe Moshenska rediscovers a poet whose rich contradictions confound his monumental image. Immersing ourselves in the rhythms and textures of Milton's world, we move from the music of his childhood home to his encounter with Galileo in Florence into his idiosyncratic belief system and his strange, electrifying imagination. *Making Darkness Light* will change the way we think about Milton, the place of his writings in his life, and his life in history. It is also a book about Milton's place in our times: about our relationship with the Western canon, about why and how we read, and about what happens when we let someone else's ideas inflect our own.

The bestselling, beloved classic on how to go into the dark side of yourself to bring out the light -- now with new material. Debbie Ford believes that we each hold within us a trace of every human characteristic that exists, the capacity for every human emotion. We are born with the ability to express this entire spectrum of characteristics. But, Ford points out, our families and our society send us strong messages about which ones are good and bad. So when certain impulses arise, we deny them instead of confronting them, giving them a healthy voice, then letting them go. It is to these feelings that Ford turns our attention, these parts of our selves that don't fit the personae we have created for the rest of the world. She shows us the effects of living in the dark, of keeping all our supposedly unsavory impulses under wraps. We find ourselves disproportionately frustrated and angry at the selfishness of friends, the laziness of colleagues, the arrogance of siblings. When we are unable to reconcile similar impulses in ourselves, Ford explains, we waste our own energy judging others instead of empathizing. But most important, we deny ourselves the power and freedom of living authentically. Through the stories and exercises in *The Dark Side of the Light Chasers*, Debbie Ford shows us not only how to recognize our hidden emotions, but also how to find the gifts they offer us. This is for fans of Marianne Williamson, Neale Donald Walsch, and Deepak Chopra. The very impulses we most fear may be the key to what is lacking in our lives.

The only author to win all three major Russian literary prizes (including the Russian Booker Prize), Mikhail Shishkin is one of the most acclaimed contemporary Russian literary figures. The Guardian said of Shishkin's writing: "richly textured and innovative. . . arguably Russia's greatest living novelist." The Wall Street Journal raved that "Shishkin has created a bewitching potion of reality and fantasy, of history and fable, and of lonely need and joyful consolation. An exquisite novel... His sovereignty is over the invisible and the timeless. Mr. Shishkin traces this sad story with great beauty and finesse." In *The Light and the Dark* Shishkin has created an evocative love story of two young lovers, Vladimir, a soldier fighting the Boxer Rebellion, and Alexandra. Known fondly to each other as Vovka and Sashka, the two young lovers sustain their love by writing passionate letters to each other. But as their correspondence continues, it becomes clear that the couple's separation is chronological as well as geographical--that their extraordinary romance is actually created out of, as well as kept alive by, their yearning epistolary exchange, which defies not only space but time. With this contrapuntal literary testament to the delirious, transcendent power of love, Mikhail Shishkin--the most celebrated Russian author of his generation--has created a masterpiece of modern fiction. From the Hardcover edition.

Light pervades the world, and when it is not light, darkness emerges and is combated by electric illumination. Despite this globally shared human experience in which spaces appear radically different depending on time, season, and weather, social science investigation on the subject is meager. *From Light to Dark* fills this gap, focusing on our interaction with daylight, illumination, and darkness. Tim Edensor begins by examining the effects of daylight on our perception of landscape, drawing on artworks, particular landscapes, and architectural practice. He then considers the ways in which illumination is often contested and can be used to express power, looking at how capitalist, class, ethnic, military, and state power use lighting to reinforce their authority over space. Edensor also considers light artists such as Olafur Eliasson and festivals of illumination before turning a critical eye to the supposedly dangerous, sinister associations of darkness. In examining the modern city as a space of fantasy through electric illumination, he studies how we are seeking--and should seek--new forms of darkness in reaction to the perpetual glow of urban lighting. Highly original and absorbingly written, *From Light to Dark* analyzes a vast array of artistic interventions, diverse spaces, and lighting technologies to explore these most basic human experiences.

How to awaken the Ureaus--the serpent power of spiritual transcendence within each of us--and connect to the superconscious of the universe • Reveals the biochemistry of how the body's melanin provides the template for the subtle energy body or light body • Shows how embracing the dark light consciousness of the awakened Ureaus opens a portal to the sacred darkness of the superconscious • Provides illustrated instructions for meditation practices, breathing exercises, and yoga postures to safely awaken Ureaus/Kundalini energy Within each of us lies the potential to activate a personal connection to the superconscious. Called "Ureaus" in ancient Egyptian texts and "Kundalini"

in ancient Hindu yoga traditions, our innate serpent power of spiritual transcendence inhabits the base of the spine in its dormant state. When awakened, it unfurls along the spinal column to the brain, connecting individual consciousness to the consciousness of the universe enfolded within the dark matter of space. At the root of creativity and spiritual genius across innumerable cultures and civilizations, this intelligent force reveals portals that enfold time, space, and the luminous matrix of reality itself. Combining physics, neuroscience, and biochemistry with ancient traditions from Africa and India, Edward Bruce Bynum, Ph.D., explores the ancient Egyptian science of the Ureaus and reveals how it is intimately connected to dark matter and to melanin, a light-sensitive, energy-conducting substance found in the brain, nervous system, and organs of all higher life-forms. He explains how the dark light of melanin serves as the biochemical infrastructure for the subtle energy body, just as dark matter, together with gravity, holds the galaxies and constellations together. With illustrated instructions, he shows how to safely awaken and stabilize the spiritual energy of the Ureaus through meditation practices, breathing exercises, and yoga postures as well as how to prepare the subtle body for transdimensional soul travel. By embracing the dark light of the shining serpent within, we overcome our collective fear of the vast living darkness without. By embracing the dark, we transcend reality to the dimension of light.

"David Thomson, in his usual brilliantly insightful way, shines a light on the visionary directors who have shaped modern cinema and, through their work, studies the very nature of film direction... Thomson analyzes both landmark works and forgotten films from classic directors such as Orson Welles, Alfred Hitchcock, Jean Renoir and Jean-Luc Godard, as well as contemporary powerhouses such as Jane Campion, Spike Lee and Quentin Tarantino. He shrewdly interrogates their professional legacies and influence in the industry, while simultaneously assessing the critical impact of an artist's personal life on his or her work. He explores the male directors' dominance of the past, and describes how diversity can change the landscape."--

-Bookpage What inspires you? That's the simple, but profound question posed to forty-six renowned authors in *LIGHT THE DARK*. Each writer begins with a favorite passage from a novel, a song, a poem—something that gets them started and keeps them going with the creative work they love. From there, incredible lessons and stories of life-changing encounters with art emerge, like how sneaking books into his job as a night security guard helped Khaled Hosseini learn that nothing he creates will ever be truly finished. Or how a college reading assignment taught Junot Díaz that great art can be a healing conversation, and an unexpected poet led Elizabeth Gilbert to embrace an unyielding optimism, even in the face of darkness. *LIGHT THE DARK* collects the best of *The Atlantic's* much-acclaimed "By Heart" series edited by Joe Fassler and adds brand new pieces, each one paired with a striking illustration. Here is a guide to creative living and writing in the vein of *Daily Rituals*, *Bird by Bird*, *Draft No. 4*, and *Big Magic* for anyone who wants to learn how great writers find inspiration—and to find some of your own. "Freak. Witch. Crazy. Schizo. Ember Brycin has been called them all. She's always known she's different. No one has ever called her normal, even under the best circumstances.

Bizarre and inexplicable things continually happen to her, and having two different colored eyes, strange hair, and an unusual tattoo only contributes to the gossip about her. When the latest school explosion lands her in a facility for trouble teens, she meets Eli Dragen, who's hot as hell and darkly mysterious. Their connection is full of passion, danger, and secrets. Secrets that will not only change her life, but what and who she is--leading her down a path she never imagined possible. Between Light and Dark, Ember finds a world where truth and knowledge are power and no one can be trusted. But her survival depends on finding out the truth about herself. In her pursuit, she is forced between love and destiny and good and evil, even when the differences between them aren't always clear. At worst, she will incite a war that could destroy both worlds. At best, she will not only lose her heart but her life and everyone she loves. Once the truth is out, however, there will be no going back. And she'll definitely wish she could."--Back cover.

Dark Light of Love, John S. Dunne's twenty-third book, was written before his death on November 11, 2013. Dunne, called by Christian Century "one of the most serious and original theologians in the country," continues his quest of faith seeking understanding. In this new book he examines darkness as a metaphor for unknowing and the unknown. If dark light is like physical light traveling through the darkness of outer space, invisible until it strikes an object, then the dark light of love is the kindly light that leads us by the heart, one step at a time, toward God. In this slender, deeply meditative work, Dunne engages with a rich variety of sources?literature, theology, philosophy, and music?in an effort to elaborate how "the dark light of love" illuminates a soul in the process whereby it is "oned" with God through emergence, separation, and finally union. As Paul Kollman observes in the foreword, by examining his own knowing and his own loving in that process, Dunne leads us to reconsider our own knowing and loving, thereby shining light on the puzzles that perplex each of us.

In the midst of unrest on his home world of Shola, Kusac has chosen to undertake a secret mission of which only those in the highest echelons of the Brotherhood are aware. And even they are not privy to all the information Kusac has uncovered, nor all the plans he has made. Carrie and Kaid have not been told the truth. So when Kusac flees Shola, seemingly abandoning his responsibilities, his Triad, and his Clan, Carrie is devastated and Kaid is furious. Yet Carrie will not give up on Kusac, certain he will one day return to explain his actions. But whether Kusac and his elite team can actually accomplish their mission and escape with their lives remains to be seen. For to achieve their goal they must rendezvous with the Valtegan general who is Kusac's archenemy in the hopes of rescuing Kusac's young son. But even if he succeeds—branded rebel by his own people, struggling to deal with new powers he scarcely understands, and caught between the machinations of his own god and those of a secret and ancient alien organizations—can Kusca hope to regain all that he has lost on Shola?
