Lessons from the Kalahari: Tracking Teachers' Professional Development explores how Northern Cape teachers, who were enrolled in a Bachelor of Education (in-service) course, responded to three professional-development modules specialising in mathematics education, English language teaching, and Foundation Phase teaching, respectively. Mainly through fine-grained analyses of their classroom practice, the studies in this volume demonstrate how these teachers grappled with new content knowledge and pedagogical innovations to improve the quality of teaching in their classrooms. The chapters include case studies that range across a variety of pedagogical topics, including mathematics and English teachers' classroom practices,

involvement of parents of Foundation Phase learners, and learners' autonomous mathematics learning. The book makes an original, empirically-based contribution to the understanding of the challenges confronting primary and secondary school teachers in remote rural parts of Northern Cape province, South Africa.

Word Nerds takes you inside classrooms at a high-poverty urban school and shows how two teachers implement creative, flexible vocabulary instruction that improves their students' word knowledge and confidence, enhances classroom community, and increases achievement. Leslie Montgomery and Margot Holmes Smith weave vocabulary into each school day using multisensory instruction that includes music, art, literature, movement, games, drama, writing, test-taking skills, and technology. Along the way, they turn every student into a lover of language. With support from literacy specialist Brenda Overturf, Leslie and Margot have developed a five-part plan--introducing new words in context, adding related synonyms and antonyms, engaging students in several days of active learning, celebrating new words, and assessing vocabulary development--that teaches all students to learn and love vocabulary. This easy-to-read reference explains how to plan, teach, and assess based on the latest research in vocabulary instruction and learning. Forget copying definitions from the dictionary and completing boring worksheets! Word mastery comes from intimate knowledge of language. From prediction to practice to performance, students from all backgrounds can discover how to make words their own. After incorporating Leslie's and Margot's vocabulary plan into your daily instruction, you and your students can become word nerds, too!

Children are already learning at birth, and they develop and learn at a rapid pace in their early years. This provides a critical foundation for lifelong progress, and the adults who provide for the care and the education of young children bear a great responsibility for their health, development, and learning. Despite the fact that they share the same objective - to nurture young children and secure their future success - the various practitioners who contribute to the care and the education of children from birth through age 8 are not acknowledged as a workforce unified by the common knowledge and competencies needed to do their jobs well. Transforming the Workforce for Children Birth Through Age 8 explores the science of child development, particularly looking at implications for the professionals who work with children. This report examines the current capacities and practices of the workforce, the settings in which they work, the policies and infrastructure that set qualifications and provide professional learning, and the government agencies and other funders who support and oversee these systems. This book then makes recommendations to improve the quality of professional practice and the practice environment for care and education professionals. These detailed recommendations create a blueprint for action that builds on a unifying foundation of child development and early learning, shared knowledge and competencies for care and education professionals, and principles for effective professional learning. Young children thrive and learn best when they have secure, positive relationships with adults who are knowledgeable about how to support their development and learning and are responsive to their individual progress. Transforming the Workforce for Children Birth Through Age 8 offers guidance on system changes to improve the quality of professional practice, specific actions to improve professional learning systems and workforce development, and research to continue to build the knowledge base in ways that will directly advance and inform future actions. The recommendations of this book provide an opportunity to improve the quality of the care and the education that children receive, and ultimately improve outcomes for children.

Systems for Change offers specific - and, quite often, unique - suggestions for planning and implementing a literacy professional development course.

Hoverdia Eighteen is first of its kind and a brand new Two-In-One logic-number puzzle. The main puzzle is best represented by 8 long horizontal blocks and 8 long vertical blocks, with each long horizontal block and each long vertical block consists of 8 small boxes, which give the total of 64 boxes. Each long horizontal or long vertical block which consists of 8 boxes must contain one of the numbers from 1 to 8 inclusively without repeating any thereof - This is Rule One. The main puzzle with 64 boxes is also alternatively represented by 4 sub-puzzles which are called Quadrants and each quadrant is made up of 4x4 short blocks. For Rule Two in any of the 4 quadrants, after having complied with Rule One, each block, consists of 4 boxes, must be added up to the sum of 18 horizontally, vertically and diagonally.

A #1 NEW YORK TIMES BESTSELLER! Featured in its own episode in the Netflix original show Bookmarks: Celebrating Black Voices! National Book Award winner Jacqueline Woodson and two-time Pura Belpré Illustrator Award winner Rafael López have teamed up to create a poignant, yet heartening book about finding courage to connect, even when you feel scared and alone. There will be times when you walk into a room and no one there is quite like you. There are many reasons to feel different. Maybe it's how you look or talk, or where you're from; maybe it's what you eat, or something just as random. It's not easy to take those first steps into a place where nobody really knows you yet, but somehow you do it. Jacqueline Woodson's lyrical text and Rafael López's dazzling art reminds us that we all feel like outsiders sometimes-and how brave it is that we go forth anyway. And that sometimes, when we reach out and begin to share our stories, others will be happy to meet us halfway. (This book is also available in Spanish, as *El Día En Que Descubres Quién Eres!*)

'A roaring tale ... remains as vivid and exciting today as it was on publication in 1697' Guardian The pirate and adventurer William Dampier circumnavigated the globe three times, and took notes wherever he went. This is his frank, vivid account of his buccaneering sea voyages around the world, from the Caribbean to the Pacific and East Indies. Filled with accounts of raids, escapes, wrecks and storms, it also contains precise observations of people, places, animals and food (including the first English accounts of guacamole, mango chutney and chopsticks). A bestseller on publication, this unique record of the colonial age influenced Robinson Crusoe, Gulliver's Travels and consequently the whole of English literature. Edited with an Introduction by Nicholas Thomas

This is a virtual elective course for university students who need to use English in their academic work. This means that this subject is not related to a particular degree course (engineering, biology, law, etc.) but it aims to help students develop their language learning skills and at the same time to foster extensive practice in language use, with the Internet as the basic learning tool. Therefore, this is an instrumental course which is essentially practical and emphasizes communication rather than language study. It differs from a traditional language course in that it

has been designed basically as a tool to help students learn to learn English. That is to say, the syllabus is not based on specific language content graded in terms of difficulty, but it is composed of a series of practical activities to encourage students to learn English effectively and independently, by choosing materials suited to their level of English and to their learning style. For this reason, this course can be taken by students with different levels of English as long as they are familiar with the basic structures of the language and can more or less communicate in English

****Four starred reviews!**** From the U.S.'s foremost Indigenous children's author comes a middle grade verse novel set during the COVID-19 pandemic, about a Wabanaki girl's quarantine on her grandparents' reservation and the local dog that becomes her best friend Malian loves spending time with her grandparents at their home on a Wabanaki reservation. She's there for a visit when, suddenly, all travel shuts down. There's a new virus making people sick, and Malian will have to stay with her grandparents for the duration. Everyone is worried about the pandemic, but Malian knows how to keep her family and community safe: She protects her grandparents, and they protect her. She doesn't go outside to play with friends, she helps her grandparents use video chat, and she listens to and learns from their stories. And when Malsum, one of the dogs living on the rez, shows up at their door, Malian's family knows that he'll protect them too. Told in verse inspired by oral storytelling, this novel about the COVID-19 pandemic highlights the ways Malian's community has cared for one another through plagues of the past, and how they keep caring for one another today.

Parents can play an immensely important role in supporting their children's literacy learning at home, but how can primary teachers enlist the support of parents in helping children learn literacy? With a focus on improving children's literacy skills, this book provides practical answers to key questions that are directly relevant to all primary teachers and to many parents. It presents new ways of linking learning in home and school through a range of activities that can be used to share knowledge between children, parents and teachers. Activities include: teachers and children making videos to show parents how children learn literacy in school parents and children taking photos of the 'everyday' literacy they use outside school parents and teachers exchanging information through Home-School folders and diaries. Particular attention is given to ways of working with parents from a diverse range of family backgrounds reflecting the multi-ethnic nature of many schools today. The practical activities can easily be fitted into the day-to-day activities of busy classrooms and can provide crucial new ways of improving children's learning of literacy skills.

A step-by-step program that shows parents, simply and clearly, how to teach their child to read in just 20 minutes a day.
