"Nat Hentoff may very well be the foremost jazz historian in the world because he was there to witness firsthand the music's evolution from big band and swing to fusion and bossa nova; and to dive into the souls of the men and women who created it from Ellington, Basie, Miles, Ray Charles, Ella Fitzgerald and Dinah Washington, among many others. At the Jazz Band Ball: Sixty Years on the Jazz Scene is an invaluable archive of not only the musical influence of America's only indigenous music on the world, but its enormous impact as an engine for social change as well. It is a book that should be read by every young musician, music fan, and educator in America."—Quincy Jones "The very best witnesses in the worlds of the law, aesthetic evaluation, social contexts of imposing significance, and artistic public performance are those who accurately understand what they have seen or what they are seeing. Nat Hentoff has been and continues to be a star witness in every one of those arenas. One of the greatest contributions of his jazz writing is that he has never felt the need to condescend to black people or to let the dictates of sociology diminish the universal significance of what they do when they do it well. Nat knows that so many jazz musicians have done what they do superbly, quite often expressing themselves beyond the narrows of color. As sensitive to the Americana of jazz as he is to its transcendent revelations about the sound of the human heart, Nat Hentoff is part of our American luck."—Stanley Crouch "At the Jazz Band Ball is full of nuggets from Nat's rich lode of wit and wisdom, gleaned in a lifetime of fellowship with jazz and its makers."—Dan Morgenstern, Director, Institute of Jazz Studies, Rutgers University; author of *Living With Jazz: A Reader*

From the bestselling author of *Blink* and *The Tipping Point*, Malcolm Gladwell's *Outliers: The Story of Success* overturns conventional wisdom about genius to show us what makes an ordinary person an extreme overachiever. Why do some people achieve so much more than others? Can they lie so far out of the ordinary? In this provocative and inspiring book, Malcolm Gladwell looks at everyone from rock stars to professional athletes, software billionaires to scientific geniuses, to show that the story of success is far more surprising, and far more fascinating, than we could ever have imagined. He reveals that it's as much about where we're from and what we do, as who we are - and that no one, not even a genius, ever makes it alone. *Outliers* will change the way you think about your own life story, and about what makes us all unique. 'Gladwell is not only a brilliant storyteller; he can see what those stories tell us, the lessons they contain' Guardian 'Malcolm Gladwell is a global phenomenon ... he has a genius for making everything he writes seem like an impossible adventure' Observer 'He is the best kind of writer - the kind who makes you feel like you're a genius, rather than he's a genius' The Times

Shots rang out in Savannah's grandest mansion in the misty, early morning hours of May 2, 1981. Was it murder or self-defense? For nearly a decade, the shooting and its aftermath reverberated throughout this hauntingly beautiful city of moss-hung oaks and shaded squares. John Berendt's sharply observed, suspenseful, and witty narrative reads like a thoroughly engrossing novel, and yet it is a work of nonfiction. Berendt skillfully interweaves a hugely entertaining first-person account of life in this isolated remnant of the Old South with the unpredictable twists and turns of a landmark murder case. It is a spellbinding story peopled by a gallery of remarkable characters: the well-bred society ladies of the Married Woman's Card Club; the turbulent young redneck gigolo; the hapless recluse who owns a bottle of poison so powerful it could kill every man, woman, and child in Savannah; the aging and profane Southern belle who is the "soul of pampered self-absorption"; the uproariously funny black drag queen; the acerbic and arrogant antiques dealer; the sweet-talking, piano-playing con artist; young blacks dancing the minuet at the black debutante ball; and Minerva, the voodoo priestess who works her magic in the graveyard at midnight. These and other Savannahians act as a Greek chorus, with Berendt revealing the alliances, hostilities, and intrigues that thrive in a town where everyone knows everyone else. *Midnight in the Garden of Good and Evil* is a sublime and seductive reading experience. Brilliantly conceived and masterfully written, this enormously engaging portrait of a most beguiling Southern city has become a modern classic. Sixty solos such as *Moose the Mooch*, *Ornithology* and *Anthropology*, transcribed by Jamey Aebersold and Ken Slone. A cross section of the music of Charlie Parker. Spiral-bound, with chord symbols, metronome markings, record information, and practice suggestions. (Real Book Multi-Tracks Play-Along). Today's best way to practice jazz! Considered by many to be a founder of Afrofuturism, Sun Ra—aka Herman Blount—was a composer, keyboardist, bandleader, philosopher, entrepreneur, poet, and self-proclaimed extraterrestrial from Saturn. He recorded over 200 albums with his Arkestra, which, dressed in Egypto-space costumes, played everything from boogie-woogie and swing to fusion and free jazz. John Szwed's *Space is the Place* is the definitive biography of this musical polymath, who was one of the twentieth century's greatest avant-garde artists and intellectuals. Charting the whole of Sun Ra's life and career, Szwed outlines how after years in Chicago as a blues and swing band pianist, Sun Ra set out in the 1950s to impart his views about the galaxy, black people, and spiritual matters by performing music with the Arkestra that was as vital and innovative as it was mercurial and confounding. Szwed's readers—whether they are just discovering Sun Ra or are among the legion of poets, artists, intellectuals, and musicians who consider him a spiritual godfather—will find that, indeed, space is the place.

In his eulogy of saxophonist Johnny Hodges (1907-70), Duke Ellington ended with the words, "Never the world's most highly animated showman or greatest stage personality, but a tone so beautiful it sometimes brought tears to the eyes--this was Johnny Hodges. This is Johnny Hodges." Hodges' unforgettable tone resonated throughout the jazz world over the greater part of the twentieth century. Benny Goodman described Hodges as "by far the greatest man on alto sax that I ever heard," and Charlie Parker compared him to Lily Pons, the operatic soprano. As a teenager, Hodges developed his playing style by imitating Sidney Bechet, the New Orleans soprano sax player, then honed it in late-night cutting sessions in New York and a succession of bands lead by Chick Webb, Willie "The Lion" Smith, and Luckey Roberts. In 1928 he joined Duke Ellington, beginning an association that would continue, with one interruption, until Hodges' death. Hodges' celebrated technique and silky tone marked him then, and still today, as one of the most important and influential saxophone players in the history of

jazz. As the first ever biography on Johnny Hodges, *Rabbit's Blues* details his place as one of the premier artists of the alto sax in jazz history, and his role as co-composer with Ellington.

This timely book takes an original transnational approach to the theme of Nazism and neo-Nazism in film, media, and popular culture, with examples drawn from mainland Europe, the UK, North and Latin America, Asia, and beyond. This approach fits with the established dominance of global multimedia formats, and will be useful for students, scholars, and researchers in all forms of film and media. Along with the essential need to examine current trends in Nazism and neo-Nazism in contemporary media globally, what makes this book even more necessary is that it engages with debates that go to the very heart of our understanding of knowledge: history, memory, meaning, and truth. A much-praised memoir of living and surviving mental illness as well as "a stereotype-shattering look at a tenacious woman whose brain is her best friend and her worst enemy" (Time). Elyn R. Saks is an esteemed professor, lawyer, and psychiatrist and is the Orrin B. Evans Professor of Law, Psychology, Psychiatry, and the Behavioral Sciences at the University of Southern California Law School, yet she has suffered from schizophrenia for most of her life, and still has ongoing major episodes of the illness. *The Center Cannot Hold* is the eloquent, moving story of Elyn's life, from the first time that she heard voices speaking to her as a young teenager, to attempted suicides in college, through learning to live on her own as an adult in an often terrifying world. Saks discusses frankly the paranoia, the inability to tell imaginary fears from real ones, the voices in her head telling her to kill herself (and to harm others), as well as the incredibly difficult obstacles she overcame to become a highly respected professional. This beautifully written memoir is destined to become a classic in its genre.

San Francisco's infamous Barbary Coast was one of the country's thriving centers of jazz in the early 1900s. "Jazz on the Barbary Coast" captures the incredible energy of the black jazz scene of this era through the firsthand accounts of the men who were at the heart of it. Musicians such as Sid LeProtte, Reb Spikes, Wesley Fields, Alfred Levy, and Charlie "Duke" Turner recreate the hot spots, dances, rivalries, and lawlessness that characterized the San Francisco jazz scene and inspired jazz musicians for generations to come.

It's nineteen fifty-something, in a dark, cramped, smoke-filled room. Everyone's wearing black. And on-stage a tenor is blowing his heart out, a searching, jagged saxophone journey played out against a moody, walking bass and the swish of a drummer's brushes. To a great many listeners--from African American aficionados of the period to a whole new group of fans today--this is the very embodiment of jazz. It is also quintessential hard bop. In this, the first thorough study of the subject, jazz expert and enthusiast David H. Rosenthal vividly examines the roots, traditions, explorations and permutations, personalities and recordings of a climactic period in jazz history.

Beginning with hard bop's origins as an amalgam of bebop and R&B, Rosenthal narrates the growth of a movement that embraced the heavy beat and bluesy phrasing of such popular artists as Horace Silver and Cannonball Adderley; the stark, astringent, tormented music of saxophonists Jackie McLean and Tina Brooks; the gentler, more lyrical contributions of trumpeter Art Farmer, pianists Hank Jones and Tommy Flanagan, composers Benny Golson and Gigi Gryce; and such consciously experimental and truly one-of-a-kind players and composers as Andrew Hill, Sonny Rollins, John Coltrane, Thelonious Monk, and Charles Mingus. Hard bop welcomed all influences--whether Gospel, the blues, Latin rhythms, or Debussy and Ravel--into its
