Ant Anstead's Building a Special brings the Haynes story full
circle, coming 61 years after the original Building a 750
Special was written by John Haynes, Haynes Publishing's
founder, when he was still a schoolboy. This book is a TV tie-
in, following the 12-part TV series Ant Anstead Master
Mechanic, aired on Motor Trend, part of the Discover Network

in the US and UK, following Ant Anstead's build of his own-design 'special' car, taking inspiration from the Alfa 158 - the first World Championship-winning F1 car, which raced from the 1930s until the 1950s. The 12-part TV series followed Ant's build of the car, from the first design ideas, through the construction, culminating in the debut of the car during the 2019 US Grand Prix weekend in Austin, Texas. The book follows Ant's personal build of the car, from the selection of the donor MG TD for the chassis, and Alfa Romeo Spider for the engine and gearbox, through modifying the chassis, building the suspension, steering, brakes, bodywork and interior, and putting all the components together to produce a finished one-off 'special.' Content includes: Introduction The history of specials Planning Donor car Chassis, suspension, steering, rear axle Engine, fuel system, cooling system, ancillaries, exhaust Gearbox Bodywork Braking system Cockpit Wiring Preparation and painting Testing Setting up and Making road legal.

The manual contains separate sections for vehicle service, engines, converters, track drive, track and suspension, and skis and steering.

Crazy Horse was as much feared by tribal foes as he was honored by allies. His war record was unmatched by any of his peers, and his rout of Custer at the Little Bighorn reverberates through history. Yet so much about him is unknown or steeped in legend. *Crazy Horse: A Lakota Life* corrects older, idealized accounts—and draws on a greater variety of sources than other recent biographies—to expose the real Crazy Horse: not the brash Sioux warrior we have come to expect but a modest, reflective man whose courage was anchored in Lakota piety. Kingsley M. Bray has plumbed interviews of Crazy Horse's contemporaries and consulted modern Lakotas to fill in vital details of Crazy Horse's inner and public life. Bray places Crazy Horse within the rich

context of the nineteenth-century Lakota world. He reassesses the war chief's achievements in numerous battles and retraces the tragic sequence of misunderstandings, betrayals, and misjudgments that led to his death. Bray also explores the private tragedies that marred Crazy Horse's childhood and the network of relationships that shaped his adult life. To this day, Crazy Horse remains a compelling symbol of resistance for modern Lakotas. *Crazy Horse: A Lakota Life* is a singular achievement, scholarly and authoritative, offering a complete portrait of the man and a fuller understanding of his place in American Indian and United States history.

In this resource, the authors uncover the benefits and limitations of North America's fuel ethanol industry.

In many economic sectors - the digital industries being first and foremost - the market power of dominant firms has been steadily increasing and is rarely challenged by competitors. Existing competition laws and regulations have been unable to make markets more contestable. The book argues that a new competition tool is needed: market investigations. This tool allows authorities to intervene in markets which do not function as they should, due to market features such as network effects, scale economies, switching costs, and behavioural biases. The book explains the role of market investigations, assesses their use in the few jurisdictions where they exist, and discusses how they should be
