"This is a study of the material life of information and its devices; of electronic waste in its physical and electronic incarnations; a cultural and material mapping of the spaces where electronics in the form of both hardware and information accumulate, break down, or are stowed away. Electronic waste occurs not just in the form of discarded computers but also as a scatter of information devices, software, and systems that are rendered obsolete and fail. Where other studies have addressed "digital" technology through a focus on its immateriality or virtual qualities, Gabrys traces the material, spatial, cultural, and political infrastructures that enable the emergence and dissolution of these technologies. In the course of her book, she explores five interrelated "spaces" where electronics fall apart: from Silicon Valley to Nasdaq, from containers bound for China to museums and archives that preserve obsolete electronics as cultural artifacts, to the landfill as material repository. All together, these sites stack up into a sedimentary record that forms the "natural history" of this study. *Digital Rubbish: A Natural History of Electronics* describes the materiality of electronics from a unique perspective, examining the multiple forms of waste that electronics create as evidence of the resources, labor, and imaginaries that are bundled into these machines. By drawing on the material analysis developed by Walter Benjamin, this natural history method allows for an inquiry into electronics that focuses neither on technological progression nor on great inventors but

rather considers the ways in which electronic technologies fail and decay. Ranging across studies of media and technology, as well as environments, geography, and design, Jennifer Gabrys pulls together the far-reaching material and cultural processes that enable the making and breaking of these technologies"--Publisher's description.

A vocabulary of Latina/o studies. Keywords for

Latina/o Studies is a generative text that enhances the ongoing dialogue within a rapidly growing and changing field. The keywords included in this collection represent established and emergent terms, categories, and concepts that undergird Latina/o studies; they delineate the shifting contours of a field best thought of as an intellectual imaginary and experiential project of social and cultural identities within the U.S. academy. Bringing together sixty-three essays, from humanists, historians, anthropologists, sociologists, among others, each focused on a single term, the volume reveals the broad range of the field while also illuminating the tensions and contestations surrounding issues of language, politics, and histories of colonization, specific to this area of study. From “borderlands” to “migration,” from “citizenship” to “mestizaje,” this accessible volume will be informative for those who are new to Latina/o studies, providing them with a mapping of the current debates and a trajectory of the development of the field, as well as being a valuable resource for scholars to expand their knowledge and critical engagement with the dynamic transformations in the field.

This study of the curriculum for girls from the beginning of this century brings a fresh perspective to New Zealand educational history. Following the early triumphs of gaining the vote (and the right to qualify for university degrees), progress in women's education was not always straightforward. Social attitudes and provisions for girls at state schools in the first quarter-century established patterns for later generations to inherit and modify. In some areas, such as science and mathematics, inequalities for Maori girls lingered. Using a wide range of resources, Ruth Fry traces the origin and development of the curriculum for girls to 1975, International Women's year. Those who, in 1893, achieved success in their campaign for equal voting rights were also concerned about educational opportunities for women. NZCER is very pleased to reissue *It's Different for Daughters* to celebrate the

Centenary of Women's Suffrage in New Zealand. The first biography of the epic life of one of the most important, enigmatic and private artists of the 20th century. Drawn from almost 40 years of conversations with the artist, letters and papers, it is a major work written by a well-known British art critic. Lucian Freud (1922-2011) is one of the most influential figurative painters of the 20th century. His paintings are in every major museum and many private collections here and abroad. William Feaver's daily calls from 1973 until Freud died in 2011, as well as interviews with family and friends were crucial sources for this book. Freud had ferocious energy, worked day and night but his circle was broad including not just other well-known artists but writers, bluebloods, royals in England and Europe, drag queens, fashion models gamblers, bookies and gangsters like the Kray twins. Fierce, rebellious, charismatic, extremely guarded about his life, he was witty, mischievous and a womanizer. This brilliantly researched book begins with the Freuds' life in Berlin, the rise of Hitler and the family's escape to London in 1933 when Lucian was 10. Sigmund Freud was his grandfather and Ernst, his father was an architect. In London in his twenties, his first solo show was in 1944 at the Lefevre Gallery. Around this time, Stephen Spender introduced him to Virginia Woolf; at night he was taking Pauline Tennant to the Gargoyle Club, owned by her father and frequented

by Dylan Thomas; he was also meeting Sonia Orwell, Cecil Beaton, Auden, Patrick Leigh-Fermor and the Aly Khan, and his muse was a married femme fatale, 13 years older, Lorna Wishart. But it was Francis Bacon who would become his most important influence and the painters Frank Auerbach and David Hockney, close friends. This is an extremely intimate, lively and rich portrait of the artist, full of gossip and stories recounted by Freud to Feaver about people, encounters, and work. Freud's art was his life—"my work is purely autobiographical"—and he usually painted only family, friends, lovers, children, though there were exceptions like the famous small portrait of the Queen. With his later portraits, the subjects were often nude, names were never given and sittings could take up to 16 months, each session lasting five hours but subjects were rarely bored as Freud was a great raconteur and mimic. This book is a major achievement, a tour de force that reveals the details of the life and innermost thoughts of the greatest portrait painter of our time. Volume I has 41 black and white integrated images, and 2 eight-page color inserts.

Avenging Muse is the biography of Naomi Royde-Smith, a powerful early twentieth-century British literary editor who discovered and published the first works of such writers as Rupert Brooke, Rose Macaulay, and Graham Greene. Beginning at age 50, she became in her own right a prolific author of more than thirty novels in addition to plays, biographies, and cultural critiques posing as travelogues. She writes about fin de siècle Geneva, about London and working women between the wars, about journalism and theater, about artists and their promoters, about banal culture, about social class in disarray, about a world that lacks spiritual center. Bravely Royde-Smith also writes about the lives of women loving women, men loving men, and tales about ordinary men and women in love--or not. The historical environment surrounding her writing, as well as those about whom she wrote, was morally and legally hostile to exploration of sexualities. Her fictions, witty and empathetic, emerge from her own experiences. Royde-Smith enjoyed her work as a professional muse--literary editor in London of the prestigious Saturday Westminster Gazette and then the Queen; however, she did not enjoy being cast by writers, such as Walter de la Mare and Henry Spiess, as their personal muse. Indeed, in certain of her novels, she retaliated against men who trespass, attacking their self-absorbed use of women in the

name of art. Her personal story corresponds with an increasing historical realization of women's rights, a realization that undermines romantic and neoromantic reverence for conventional muses. Her writings anticipate current literary and feminist theories of performative gender.

This book explores the complexity of Cuban dance music and the webs that connect it, musically and historically, to other Caribbean music, to salsa, and to Latin Jazz. Establishing a scholarly foundation for the study of this music, Raul A. Fernandez introduces a set of terms, definitions, and empirical information that allow for a broader, more informed discussion. He presents fascinating musical biographies of prominent performers Cachao López, Mongo Santamaría, Armando Peraza, Patato Valdés, Francisco Aguabella, Cándido Camero, Chocolate Armenteros, and Celia Cruz. Based on interviews that the author conducted over a nine-year period, these profiles provide in-depth assessments of the musicians' substantial contributions to both Afro-Cuban music and Latin Jazz. In addition, Fernandez examines the links between Cuban music and other Caribbean musics; analyzes the musical and poetic foundations of the Cuban son form; addresses the salsa phenomenon; and develops the aesthetic construct of *sabor*, central to Cuban music. Including suffragists, civil rights activists, and movers and shakers in politics and in the music industries of Nashville and Memphis, as well as many other notables, this collective portrait of Tennessee women offers new perspectives and insights into their dreams, their struggles, and their times. As rich, diverse, and wide-ranging as the topography of the state, this book will interest scholars, general readers, and students of southern history, women's history, and Tennessee history. *Tennessee Women: Their Lives and Times* shifts the historical lens from the more traditional view of men's roles to place women and their experiences at center stage in the historical drama. The eighteen biographical essays, written by leading historians of women, illuminate the lives of familiar figures like reformer Frances Wright, blueswoman Alberta Hunter, and the Grand Ole Opry's Minnie Pearl (Sarah Colley Cannon) and less-well-known characters like the Cherokee Beloved Woman Nan-ye-hi (Nancy Ward), antebellum free black woman Milly Swan Price, and environmentalist Doris Bradshaw. Told against the backdrop of their times, these are the life stories of women who shaped Tennessee's history from the eighteenth-century challenges of western expansion through the nineteenth- and twentieth-century struggles against racial and gender oppression to the twenty-first-century battles with community degradation. Taken as a whole, this collection of women's stories

illuminates previously unrevealed historical dimensions that give readers a greater understanding of Tennessee's place within environmental and human rights movements and its role as a generator of phenomenal cultural life.

In May 1962, as the struggle for civil rights heated up in the United States and leaders of the Catholic Church prepared to meet for Vatican Council II, Pope John XXIII named the first black saint of the Americas, the Peruvian Martín de Porres (1579–1639), and designated him the patron of racial justice. The son of a Spanish father and a former slave woman from Panamá, Martín served a lifetime as the barber and nurse at the great Dominican monastery in Lima. This book draws on visual representations of Martín and the testimony of his contemporaries to produce the first biography of this pious and industrious black man from the cosmopolitan capital of the Viceroyalty of Peru. The book vividly chronicles the evolving interpretations of his legend and his miracles, and traces the centuries-long campaign to formally proclaim Martín de Porres a hero of universal Catholicism.
