

## My Indiana 101 Places To See

This beautifully illustrated guide identifies nearly 300 common plants in Indiana's most prominent ecosystem—the Eastern Deciduous Forest. For ease of identification, the plants are arranged by flower color or growth form, providing a convenient way to distinguish a great majority of plants in any given woodland. Generous treatment is given to all major vascular plant groups of the forest, such as wildflowers, ferns, shrubs, trees, grasses, and sedges. Michael A. Homoya not only helps with identification, but also offers information on a plant's habitat, flowering period, familial relationships, biology, and connections to Indiana. For the garden enthusiast and habitat restorer, there is a section on landscaping and natural community restoration using native forest plants. A portion of the proceeds from each sale of this book go to the Indiana Department of Natural Resources for land protection and stewardship.

Presents the history, geography, government, economy, and people of Indiana, as well as general facts about the state.

A heartbreaking and powerful story about a black boy killed by a police officer, drawing connections through history, from award-winning author Jewell Parker Rhodes. An instant New York Times bestsellerAn instant IndieBound bestsellerThe #1 Kids' Indie Next PickA Walter Award winner Only the living can make the world better. Live and make it better. Twelve-year-old Jerome is shot by a police officer who mistakes his toy gun for a real threat. As a ghost, he observes the devastation that's been unleashed on his family and community in the wake of what they see as an unjust and brutal killing. Soon Jerome meets another ghost: Emmett Till, a boy from a very different time but similar circumstances. Emmett helps Jerome process what has happened, on a journey towards recognizing how historical racism may have led to the events that ended his life. Jerome also meets Sarah, the daughter of the police officer, who grapples with her father's actions. Once again Jewell Parker Rhodes deftly weaves historical and socio-political layers into a gripping and poignant story about how children and families face the complexities of today's world, and how one boy grows to understand American blackness in the aftermath of his own death.

THIS IS A BOOK ABOUT SELF-SABOTAGE. Why we do it, when we do it, and how to stop doing it-for good. Coexisting but conflicting needs create self-sabotaging behaviors. This is why we resist efforts to change, often until they feel completely futile. But by extracting crucial insight from our most damaging habits, building emotional intelligence by better understanding our brains and bodies, releasing past experiences at a cellular level, and learning to act as our highest potential future selves, we can step out of our own way and into our potential. For centuries, the mountain has been used as a metaphor for the big challenges we face, especially ones that seem impossible to overcome. To scale our mountains, we actually have to do the deep internal work of excavating trauma, building resilience, and adjusting how we show up for the climb. In the end, it is not the mountain we master, but ourselves.

In this nonfiction account, Dee Brown focuses on the betrayals, battles, and massacres suffered by American Indians between 1860 and 1890. He tells of the many tribes and their renowned chiefs—from Geronimo to Red Cloud, Sitting Bull to Crazy Horse—who struggled to combat the destruction of their people and culture. Forcefully written and meticulously researched, Bury My Heart at Wounded Knee inspired a generation to take a second look at how the West was won. This ebook features an illustrated biography of Dee Brown including rare photos from the author's personal collection.

These people simply want solutions to their problems. They complain via legacy channels where the likelihood of a response is highest--phone, e-mail, and company websites. Offstage haters don't care if anyone else finds out, as long as they get answers. Onstage haters. These people are often disappointed by a substandard interaction via traditional channels, so they turn to indirect venues, such as social media, online review sites, and discussion boards. Onstage haters want more than solutions--they want an audience to share their righteous indignation. Hug Your Haters shows exactly how to deal with both groups, drawing on meticulously researched case studies from businesses of all types and sizes from around the world. It includes specific playbooks and formulas as well as a fold-out poster of "the Matrix," which summarizes the best strategies for different situations.

Continuing from Volume I, Volume II intersperses numerous soldiers' letters with those from home. The issue of slavery from both the owners and individuals is brought forth. Did colored men really serve as Confederate soldiers? Did free black men? Union soldiers described southern women as defiant, beautiful, crude, and pitiful. Read of women aboard blockade-runners, the fall of Wilmington, Sherman's march, Stoneman's western raiders, and the end of the war. Did any civilians die due to these raids? Did they idly sit by as their lives and homes were destroyed? The war did come to their doorstep during the second half of the conflict. Both Volume I and II tell something from each of the state's 87 counties. Perhaps you may find information about your ancestor among these pages. Information from period newspapers, as well as mostly unpublished letters, tell their stories.

For nearly seven decades, Jane Blaffer Owen was the driving force behind the restoration and revitalization of the town of New Harmony, Indiana. In this delightful memoir, Blaffer Owen describes the transformational effect the town had on her life. An oil heiress from Houston, she met and married Kenneth Dale Owen, great-great-grandson of Robert Owen, founder of a communal society in New Harmony. When she visited the then dilapidated town with her husband in 1941, it was love at first sight, and the story of her life and the life of the town became intertwined. Her engaging account of her journey to renew the town provides glimpses into New Harmony's past and all of its citizens—scientists, educators, and naturalists—whose influence spread far beyond the town limits. And there are fascinating stories of the artists, architects, and theologians who became part of Blaffer Owen's life at New Harmony, where, she says, "My roots could sink deeply and spread."

Mr. President: A Life of Benjamin Harrison, the thirteenth volume in the Indiana Historical Society Press's youth biography series, examines Harrison's rise to political prominence after his service as a Union army general during the Civil War. Although he served only one term, defeated for re-election by Cleveland in 1892, Harrison had some impressive achievements during his four years in the White House. His administration worked to have Congress pass the Sherman Antitrust Act to limit business monopolies, fought to protect voting rights for African American citizens in the South, preserved millions of acres for forest reserves and national parks, modernized the American navy, and negotiated several successful trade agreements with other countries in the Western Hemisphere. After losing the White House, Harrison returned to Indianapolis, once again becoming one of the city's leading citizens. He died from pneumonia on March 13, 1901, in his home on North Delaware Street, today open to the public as the Benjamin Harrison Presidential Site.

A memoir of a cross-country road trip, the tourist experience, and the cultural touchstones that bring Americans together: "A great story" (Publishers Weekly). As a boy in Ohio, Mark Winegardner spent the formative summers of his wonder years touring the States with his family in a succession of recreational vehicles. Much later, only months before his wedding, he undertakes another transcontinental odyssey—this time without benefit of license-plate games with his sister or parental warnings to get his feet out of the car window. He arms himself with only the bare essentials: a Styrofoam cooler; a Hawaiian shirt; enough cash for gas, blue plate specials, and the occasional knickknack; a buddy; and the buddy's ailing '68 Chevy Impala. Determined to extract full value from every scenic overlook, these two set out to discover America. They visit Xanadu, Foam House of Tomorrow, in Gatlinburg, Tennessee; and Truth or Consequences, New Mexico, the only community named after a game show. They play the Easter Island Hole at Magic Carpet Golf in Tucson. They marvel at the fourteen peacocks strolling Graceland's lawn and at the vastness of the prairie states, "where no one speaks French or pays to park." They collect 3-D glasses. They eat Devil Dogs. They take the amazing Miracle Photo. They discover themselves. Most amazing of all, they discover an unbroken chain of Elvis tapestries, Elvis ashtrays, Elvis T-shirt wearers, and Elvis imitators that unites this land as surely as Route 66 divides it.
