

Six Months Seven Series Book 2

One of The Wall Street Journal's Ten Best Mysteries of the Year "Amazing...This is a series for the ages, it's so spectacular."—Gillian Flynn, #1 New York Times bestselling author of *Gone Girl* 1846: In New York City, slave catching isn't just legal—it's law enforcement. Six months after the formation of the NYPD, its most reluctant and talented officer, Timothy Wilde, learns of the gruesome underworld of lies and corruption ruled by the "blackbirders," who snatch free Northerners of color from their homes, masquerade them as slaves, and sell them South to toil as plantation property. When the beautiful and terrified Lucy Adams staggers into Timothy's office to report a robbery and is asked what was stolen, her reply is, "My family." Their search for her mixed-race sister and son will plunge Timothy and his feral brother, Valentine, into a world where police are complicit and politics savage, and where corpses appear in the most shocking of places...

The Last Six Months is a moving story about my mother Kay who went into an NHS hospital for a routine hip operation. Her condition deteriorated soon after her operation so I started writing notes every day. Six months later I was still writing, and sadly she died while still in the hospital. My notes have become an up-to-date diary during this terrible and tragic course of events, it has also allowed me to remember the many wonderful conversations, the laughter, the tears, the anxieties, and the closeness we had. I hope from reading my mother's story, and from my readers who have kindly contributed their own stories of loved ones they should never be yesterday's news, it's so important that these stories are shown and not forgotten. Together we can make a difference. Strength In Numbers

We all define ourselves by our profession - at least to some extent. But what if our job was demeaning, poorly paid, and tedious? Cracking open Britain's divisions - immigrant/British, North/South, urban/rural, working class/middle class, leave/remain - journalist James Bloodworth spends six months living and working across Britain, taking on the country's worst jobs. He lives on the meagre proceeds and discovers the anxieties and hopes of those he encounters, including working-class British, young students striving to make ends meet, and Eastern European immigrants. Reminiscent of Orwell's Road to Wigan Pier, this is a fascinating window onto a world that Britain's London-centric media rarely visits. From the Staffordshire Amazon warehouse to the taxi-cabs of Uber, Bloodworth uncovers horrifying employment practices and shows how traditional working-class communities have been decimated by the move to soulless service jobs with no security, advancement or satisfaction. But this is more than an expose of unscrupulous employers; this is a gripping examination of post-Brexit Britain, a divided nation which needs to understand the true reality of how other people live and work, before it can heal.

Taking a job as an assistant to extreme sports enthusiast Will, who is wheelchair bound after a motorcycle accident, Louisa struggles with her employer's acerbic moods and learns of his shocking plans before demonstrating to him that life is still worth living.

Presents an account of the final six months of World War II through the beginning of the Cold War, analyzing the events

and legacy of the 1945 Yalta meeting by Roosevelt, Churchill, and Stalin as well as the geopolitical ramifications of the atomic bomb and the fall of the Iron Curtain.

"A master absurdist...Highly recommended." —The New York Times Before the success of her debut SF-and-fantasy novel *All the Birds in the Sky*, Charlie Jane Anders was a rising star in SF and fantasy short fiction. Collected in a mini-book format, here—for the first time in print—are six of her quirky, wry, engaging best: In "The Fermi Paradox Is Our Business Model," aliens reveal the terrible truth about how humans were created—and why we'll never discover aliens. "As Good as New" is a brilliant twist on the tale of three wishes, set after the end of the world. "Intestate" is about a family reunion in which some attendees aren't quite human anymore—but they're still family. "The Cartography of Sudden Death" demonstrates that when you try to solve a problem with time travel, you now have two problems. "Six Months, Three Days" is the story of the love affair between a man who can see the one true foreordained future, and a woman who can see all the possible futures. They're both right, and the story won the 2012 Hugo Award for Best Novelette. And "Clover," exclusively written for this collection, is a coda to *All the Birds in the Sky*, answering the burning question of what happened to Patricia's cat.
