First published in 1999, the papers collected in this volume were originally prepared for four workshops organized by the UN Department for Disarmament Affairs to inform the work of the Panel of Governmental Experts on Small Arms. These workshops were held during 1995-96. Some of the authors updated their papers for publication in early 1998. Lora Lumpe, senior fellow with the Norwegian Initiative on Small Arms Transfers in Oslo and Tamar Gabelnick, Acting Director of the Arms Sales Monitoring Project at the Federation of American Scientists in Washington, DC edited the presentations for this book.

For courses in nursing management in programs including baccalaureate degrees in generic and BSN completion, and graduate-level nursing programs; for education departments in health care organizations; for nurses in clinical practice who aspire to leadership; and for nurses already in leadership positions. More than ever before, today's rapidly changing, volatile healthcare environment demands highly developed management skills and superb leadership. *Effective Leadership and Management in Nursing* will help both practicing and student nurses manage successfully today, as well as into the future. This book combines practicality with conceptual understanding, tapping expertise of contributors from many relevant disciplines, especially healthcare management professionals. Updated to reflect the current state of healthcare, the Ninth Edition offers new or expanded coverage of the Affordable Care Act; evolving models of healthcare; cultural and gender diversity; quality management; emotional leadership;

Sugar chains (glycans) are often attached to proteins and lipids and have multiple roles in the organization and function of all organisms. "Essentials of Glycobiology" describes their biogenesis and function and offers a useful gateway to the understanding of glycans.

"Filled with fabulously British banter, wit, and heart, this delightful book is one of my must-read rom coms of the year." - Evie Dunmore, USA Today bestselling author of Portrait of a Scotsman "Virginia Heath's fun characters and situations will have you laughing out loud! Don't miss this wonderful read!" - Sabrina Jeffries, New York Times bestselling author The first in a new historical rom-com series, a handsome earl hires a fake fiancée to keep his matchmaking mother at bay, but hilarity ensues when love threatens to complicate everything. The last thing Hugh Standish, Earl of Fareham, ever wants is a wife. Unfortunately for him, his mother is determined to find him one, even from across the other side of the ocean. So Hugh invents a fake fiancée to keep his mother's matchmaking ways at bay. But when Hugh learns his interfering mother is on a ship bound for England, he realizes his complicated, convoluted but convenient ruse is about to implode. Until he collides with a beautiful woman, who might just be the miracle he needs. Minerva Merriwell has had to struggle to support herself and her two younger sisters ever since their feckless father abandoned them. Work as a woodcut engraver is few and far between, and the Merriwell sisters are nearly penniless. So when Hugh asks Minerva to pose as his fiancée while his mother is visiting, she knows that while the scheme sounds ludicrous, the offer is too good to pass up. Once Minerva and her sisters arrive

at Hugh's estate, of course nothing goes according to his meticulous plan. As hilarity and miscommunication ensue while everyone tries to keep their tangled stories straight, Hugh and Minerva's fake engagement starts to turn into a real romance. But can they trust each other when their relationship started with a lie? The first book in the Merriwell Sisters series, *Never Fall for Your Fiancée* is a hilarious, sparkling historical romantic comedy from Virginia Heath.

For Principles of Economics courses. Questions that drive interest, applications that illustrate concepts, and the tools to test and solidify comprehension. Students come into their first Economics course thinking they will gain a better understanding of the economy around them. Unfortunately, they often leave with many unanswered questions. To ensure students actively internalize economics, O'Sullivan/Sheffrin/Perez use chapter-opening questions to spark interest on important economic concepts, applications that vividly illustrate those concepts,

and chapter-ending tools that test and solidify understanding.

The goal of this book is to provide a solid mathematical foundation via visualization of real world data. This book uses technology as a tool to solve problems, motivate concepts, explore and preview mathematical concepts and to find curves of best fit to the data. Most mathematical concepts are developed and illustrated both algebraically and graphically, with the more intuitive and appropriate method presented first. The authors use their extensive teaching and writing experiences to guide and support readers through the typical difficult areas.

cases, notes, and problems into an integrated pedagogy that balances scholarly and practice perspectives. The authors build a conceptual framework for understanding how discrimination is defined and proven in litigation. The text allows professors to explore particular interests more deeply and permits them to take not only a litigation approach but also explore the compliance, investigation, and counseling perspectives that are characteristic of modern practice. The broad coverage integrates scholarship with legal doctrine drawn from statutes and judicial decisions. The useful Statutory Supplement is available for separate purchase. Key Benefits: *Young v. UPS* (reconceptualizing pregnancy discrimination). *Nassar v. Uni. of Texas Sw. Med. Ctr.* (requiring but-for causation for Title VII retaliation claims) *Vance v. Ball State Univ.* (narrowing the definition of supervisor for purposes of employer liability for sexual harassment) *EEOC v. Abercrombie & Fitch* (reconceptualizing claims of religious discrimination). New circuit court decisions on sexual orientation discrimination under Title VII. Streamlined coverage. works and what doesn't work regarding solutions to today's problems. The author, an applied sociologist, shows how scientific research is used to address and correct some of the most difficult and controversial problems confronting the United States and the world today. This is the number one, best selling graphing-required version of Mike Sullivan's precalculus series. It is used by thousands of students and hundreds of instructors because, simply, "IT WORKS." "IT WORKS" for both instructors and students because Mike Sullivan, after twenty-five years of teaching, knows exactly what students need to do to succeed in a math class and he therefore emphasizes and organizes his text around the fundamentals; preparing, practicing, and reviewing. Students who prepare (read the book, practice their skills learned in previous math classes), practice (work the math focusing on the fundamental and important mathematical concepts), and review (study key concepts and review for quizzes and tests) succeed in class. Instructors appreciate this emphasis as it supports their teaching goals to help their students succeed as well as appreciate the fact that this dependable text retains its best features- - accuracy, precision, depth, strong student support, and abundant exercises, while substantially updating content and pedagogy. After completing the book, students will be prepared to handle the algebra found in subsequent courses such as finite mathematics, business mathematics, and engineering calculus.

Men from South Hanguk undertake quests to gain social standing, to stand above their peers, to make names for themselves. To become heroes. Few ever return. Ha Jun, sixteen years old, possesses a glyph sword crafted in foreign lands. Alongside a soldier, a knight, and a monk, he travels across the country to destroy a demon lurking beyond the running trees of Naganeupseong Fortress. Accompanying them is the dark elf, Windshine, who emigrated to South Hanguk from her own war-torn country centuries ago. Distrusted by the people of South Hanguk, Windshine has the Emperor's protection and is tasked with recording the valiant acts of quest groups battling creatures born from nightmares. Ha Jun becomes drawn to Windshine as they near Naganeupseong Fortress, but when he discovers the blood connection between the demon and the dark elf, he will either succumb to his fear, or rise up and become a hero.
