This is a psychedelically drawn, boldly political retelling of the 1950s graphic novel The Eternaut, whose imagery is still used as a symbol of resistance in Latin America to this day. The 1950s version of The Eternaut, a seminal Argentine work, is drawn in F. Solano Lopez's clean, orderly comics art style. In the 1969 reboot, the darker tone is reflected in Breccia's Expressionist art. In The Eternaut 1969, the great world powers have forsaken South America to alien invaders, and POV character Juan Salvo, along with his friend Professor Favalli, metalworker Franco, and neighbor Susanna, join the resistance in Buenos Aires with the knowledge that the outside world will not come to their aid. Through the lenses of these timeless characters, the politically prescient creators ask readers to consider the implications of global domination by the "great powers" before it's

too late.

In the heart of Panama, a volcanic lake feeds a serpentine river—its stone banks laid by the Inca, who took back the gold and jewels plundered from them by the conquistadors. Legend has it that the Twice-Stolen Treasure has been buried for centuries in the Panamanian jungle. Discovering it means surviving the unpredictable black waters of the River of Ruin.... It begins at a Paris auction house, with a favor granted by an old high school friend to geologist Philip Mercer: the opportunity to buy a rare diary written during the French attempt at digging the Panama Canal. But Mercer isn't the only one who wants it. Three Chinese assassins have been dispatched to get it, forcing Mercer into a subterranean game of cat and mouse that takes him from the hellish maze of l'empire de la mort and through the sewers of Paris. Mercer realizes he has uncovered an intricate Chinese plot to trigger a deadly shift in the world's balance of power. At stake is control of the canal, recently handed over to the government of Panama by the United States. Only Philip Mercer—with help from beautiful U.S. Army officer Lauren Vanik, a cell of tough French Foreign Legion commandos, and a crusty eighty-year-old retired sea captain named Harry White—can stop them.

Hurtling from present day New York to Victorian London, *The Sherlockian*

weaves the history of Sherlock Holmes and Sir Arthur Conan Doyle into an inspired and entertaining double mystery that proves to be anything but "elementary." In December 1893, Sherlock Holmes-adoring Londoners eagerly opened their Strand magazines, anticipating the detective's next adventure, only to find the unthinkable: his creator, Arthur Conan Doyle, had killed their hero off. London spiraled into mourning-crowds sported black armbands in grief-and railed against Conan Doyle as his assassin. Then in 1901, just as abruptly as Conan Doyle had "murdered" Holmes in "The Final Problem," he resurrected him. Though the writer kept detailed diaries of his days and work, Conan Doyle never explained this sudden change of heart. After his death, one of his journals from the interim period was discovered to be missing, and in the decades since, has never been found.... Or has it? When literary researcher Harold White is inducted into the preeminent Sherlock Holmes enthusiast society, The Baker Street Irregulars, he never imagines he's about to be thrust onto the hunt for the holy grail of Holmes-ophiles: the missing diary. But when the world's leading Doylean scholar is found murdered in his hotel room, it is Harold-using wisdom and methods gleaned from countless detective stories-who takes up the search, both for the diary and for the killer.

In 1912, Holmes and Watson board the Titanic en route to America, where

Holmes is to carry out a top secret government mission. Disguised as a Naval Commodore, Holmes is given the added task of looking after Christine Norton - a young and attractive secret agent - as she transports highly important submarine plans to the US navy. Soon after departure, tragedy strikes and the plans are stolen and concealed somewhere on board the huge luxury liner. The list of suspects is narrowed down to a most curious collection of passengers including a beautiful widow with an undisguised interest in Dr Watson. Most notable of them all is Colonel James Moriarty, brother of the legendary late Professor Moriarty. As the investigation continues and the plot thickens the Titanic moves swiftly across the Atlantic towards New York. But out in the distance there is a place where the sky is dark and the water is bitterly cold. A gigantic iceberg waits, ready to take on and master mankind's latest challenge to the power of nature.

March 24. The spring is fairly with us now. Outside my laboratory window the great chestnut-tree is all covered with the big, glutinous, gummy buds, some of which have already begun to break into little green shuttlecocks. As you walk down the lanes you are conscious of the rich, silent forces of nature working all around you. The wet earth smells fruitful and luscious. Green shoots are peeping out everywhere. The twigs are stiff with their sap; and the moist, heavy English air is laden with a faintly resinous perfume. Buds in the hedges, lambs beneath

them-everywhere the work of reproduction going forward! I can see it without, and I can feel it within. We also have our spring when the little arterioles dilate, the lymph flows in a brisker stream, the glands work harder, winnowing and straining. Every year nature readjusts the whole machine. I can feel the ferment in my blood at this very moment, and as the cool sunshine pours through my window I could dance about in it like a gnat. So I should, only that Charles Sadler would rush upstairs to know what was the matter. Besides, I must remember that I am Professor Gilroy. An old professor may afford to be natural, but when fortune has given one of the first chairs in the university to a man of four-and-thirty he must try and act the part consistently.

When Josef Vadassy arrives at the Hotel de la Reserve at the end of his Riviera holiday, he is simply looking forward to a few more days of relaxation before returning to Paris. But in St. Gatien, on the eve of World War II, everyone is suspect—the American brother and sister, the expatriate Brits, and the German gentleman traveling under at least one assumed name. When the film he drops off at the chemist reveals photographs he has not taken, Vadassy finds himself the object of intense suspicion. The result is anything but the rest he had been hoping for.

“Uno studio in rosso” è il primo romanzo che ci ha fatto conoscere l’investigatore privato Sherlock Holmes e il suo amico dottor John H. Watson. È un testo fondamentale nella lettura delle inchieste operate da questo straordinario personaggio perché entrambi i protagonisti ci vengono, per la prima volta, presentati con le loro caratteristiche salienti: Sherlock Holmes maestro nel metodo deduttivo-analitico, mentre il dubbioso dr. Watson suo personale biografo. Ne “Il segno dei quattro” i segreti e misteri in gioco, che provengono persino dalla lontana India, non verranno svelati finché non verrà catturato un uomo con la gamba di legno. “La valle della paura”: per la polizia sembrerebbe un caso irrisolvibile, ma non per Holmes che intuisce dalle sue investigazioni, influenzate dalla lunga mano del terrificante suo nemico prof. James Moriarty, che la realtà non sempre è quella che sembra. “Il mastino dei Baskerville”: è un’inchiesta che sconfinava a momenti nel fantastico e nel paranormale. Il romanzo oscilla tra piani colmi di situazioni inaspettate, incubi, misteri coinvolgendo personaggi che nascondono storie segrete correlate con la vicenda della morte di sir Charles Baskerville.
