brilliant, harrowing, heartbreaking, fascinating story, full of beautiful moments and hard-won wisdom. This book will save a lot of lives and heal a lot of hearts.” — Anne Lamott “When one of us tells the truth, he makes it easier for all of us to open our hearts to our own pain and that of others.’ That’s ultimately what Beautiful Boy is about: truth and healing.” — Mary Pipher, author of Reviving Ophelia What had happened to my beautiful boy? To our family? What did I do wrong? Those are the wrenching questions that haunted David Sheff’s journey through his son Nic’s addiction to drugs and tentative steps toward recovery. Before Nic became addicted to crystal meth, he was a charming boy, joyous and funny, a varsity athlete and honor student adored by his two younger siblings. After meth, he was a trembling wraith who lied, stole, and lived on the streets. David Sheff traces the first warning signs: the denial, the three a.m. phone calls—is it Nic? the police? the hospital? His preoccupation with Nic became an addiction in itself. But as a journalist, he instinctively researched every treatment that might save his son. And he refused to give up on Nic. “Filled with compelling anecdotes and important insights . . . This monograph examines the nature of active learning at the higher education level, the empirical research on its use, the common obstacles and barriers that give rise to faculty resistance, and how faculty and staff can implement active learning techniques. A preliminary section defines active learning and looks at the current climate surrounding the concept. A second section, entitled "The Modified Lecture" offers ways that teachers can incorporate active learning into their most frequently used format: the lecture. The following section on classroom discussion explains the conditions and techniques needed for the most useful type of exchange. Other ways to promote active learning are also described including: visual learning, writing in class, problem solving, computer-based

instruction, cooperative learning, debates, drama, role playing, simulations, games, and peer teaching. A section on obstacles to implementing active learning techniques leads naturally to the final section, "Conclusions and Recommendations," which outlines the roles that each group within the university can play in order to encourage the implementation of active learning strategies.
